Product of the Year!

NON-LETHAL DEFENSE

AWARD WINNING DESIGN

The Self Defense Product of the Year, HERO 2020 offers unparalleled quality in non-lethal protection.

HERO 2020 uses nitrogen power to fire PAVA projectiles that explode on impact, creating a cloud of irritant. Projectiles are fired at 160-175* feet per second (FPS) from 20 feet away. Features include an LED stun light, Class 2 laser for aiming, dual sided safety, and quick swap cartridges.

Designed for every lifestyle, HERO 2020's compact size makes it easy to conceal and carry wherever you go.

Designed, Assembled, & Supported in the USA

We're passionate about building and supporting non-lethal products that save lives. That's why we only work with suppliers and manufacturers who share our commitment to product safety, testing, and quality materials. HERO and its employees are located in the United States and available to answer any questions.
